SEGRA®

Connectvity Created for
High-Bandwidth Scalability

Solutions for Hyperscalers

Segra equips social technology companies with the network capacity needed to transmit massive amounts of data. Whether streaming content, broadcasting games, or delivering artificial intelligence, Segra's 100% fiber-optic network offers scalability to meet ever-increasing bandwidth needs.

Fiber Connectivity is the Gold Standard.

Segra's robust, carrier-grade fiber optic network is built on redundancy, diversity, and reliability, giving media and entertainment companies the ability to confidently deliver value-added services.

Comprehensive Solutions for Ultimate Scalability.

Our regional network connects major data centers throughout the United States. We offer a complete turn-key solution to ensure that your network has the scale and bandwidth it needs.

Stay Connected and Supported.

Segra provides our customers with the highest quality service and support. We employ local sales and support teams to ensure a timely response and a team that understands the network and the local communities we serve.
A Winning Lineup of Solutions...

- Ethernet
- Dark Fiber
- Dedicated Internet
- Wavelengths

Why Segra?
- Scalability
- Reliability
- Security
- SLA's

As one of the largest independent fiber network companies in the US, Segra has a broad and dense service footprint nationwide. Segra offers a complete solution to ensure that your network has the scale and bandwidth it needs while staying within budget. From quick network expansion, to rapid, scalable bandwidth, our customized network solutions are here to serve you.
